

## DIABETES COLLABORATIVE REGISTRY

# The Diabetes Collaborative Registry® is Our Cross-Specialty Clinical Partner

The first global, cross-specialty clinical registry designed to track and improve the quality of diabetes and metabolic disease management across the primary care and specialty care continuum.

## THE DIABETES COLLABORATIVE REGISTRY ENABLES PARTICIPATING PRACTICES TO:

**Coordinate patient care**  
across specialties to drive  
improvement in outcomes.

**Identify opportunities** to close  
gaps in diabetes care and  
achieve health equity.

**Easily collect data** on key  
performance measure that  
drive change in diabetes care.

**Ensure patients receive  
comprehensive care** based  
on the latest research, science  
and guidelines.

**Receive up-to-date  
information** on the quality of  
care provided to patients by  
tracking adherence to national  
benchmarks at the practice  
and provider levels.

**Submit federal quality  
performance data** for positive  
payment adjustment.
